

April 2022

All Charitable Foundation accounts have been reconciled with their respective bank and brokerage statements through April 30, 2022. All financial reports are attached below.

**Notes of special interest:**

In April we received donations from 49 donors totaling \$5,442. This compares with April of 2021 when we received \$6,241. From 36 donors. We continue to receive donations from new donors; these new donors are welcomed. In April we received a pledge from the Western Region Roundup (WRR) organizing committee of \$2,000. This check should arrive in May. In addition to this pledge, we received donations of \$1,265 from numerous donors at the WRR in Reno. Included in that amount is \$140 from Janice VanHorn who passed the hat during one of her sessions. We estimate that 12 individuals made donations, but the full amount was entered as Anonymous and counted as one donor.

Other than the WRR, April was a quiet month, with the exception that the stock market has hit us hard, with an unrealized loss in April of over \$58K. Our Year-to-date losses are \$64K, all related to the drop in the stock market. We are invested conservatively, and many professional financial managers anticipate a recover of the stock market. Of course, the timing and amount of recovery is unknown and we simply await that recovery.

Email me if you have questions or comments.
