

January 2022

All Charitable Foundation accounts have been reconciled with their respective bank and brokerage statements through January 31, 2022. All financial reports are attached below.

Notes of special interest:

In January we received donations totaling \$13,901 from 49 donors. January is the final month in our fiscal year and donors for the 12 months this fiscal year totaled 335 with donations of \$149,077. This is the largest number of donors for any one fiscal year that we have experienced in the past 13 years.

The Brotherhood Fund continues to assist with the assistance of a WW II SubVet in our Tucson Base who needs support along with the several bases in Arizona chipping in until he obtains permanent assistance from the VA. That is expected, but the timing is, as we know, uncertain. We made a disbursement of a little over \$8,000 for the beginning of the Lost Boat Memorial on the Sacramento River Walk parkway.

We ended our fiscal year with a profit of \$9,648, while it reflects a profit, a modest one. A significant factor is the stock market and its sporadic performance over the recent months. January ended with a significant dropping, resulting in significant unrealized losses. While unrealized, our financial statements reflect our financial position as of 1/31/2022. I view the activity from our broader base of donors as well as the positioning of the economy as positive and am optimistic about the upcoming year.
