

September 2022

All Charitable Foundation accounts have been reconciled with their respective bank and brokerage statements through September 30, 2022. All financial reports are attached below.

Notes of special interest:

In September we received donations from 54 donors totaling \$36,127. This compares with September of 2021 when we received \$33,603 from 79 donors.

We have transitioned to Quickbooks Online and have it integrated with Flipcause, making a lot fewer transactions to manually enter. Information will be the same, but report names may be different.

We are still experiencing a significant drop in the stock market, affecting every investor in a negative way. We are long term investors and while it is almost breathtaking to watch this movement, we are constantly reminded to stay the course and look to history relative to increases and decreases in the stock market.

Email me if you have questions or comments.
